"PSYCHEDELIC BOMB-A-WAY!!"

FEATURES

Psychedelic bomb-a-way!!

Exciting psychedelic color visuals... eerie, bone chilling sound... thunderous explosions highlight this new TAITO game.

This is not just another invaders game. True, your mother ship is being attacked by invading aliens. True, the aliens are bent on your total annihilation. But in this game, the aliens are flying in random patterns across the screen. The UFOs are totally unpredictable. They fly, they gyrate, they spin, jump and change shape continuously. It takes the high jet skill and readiness to lock on with your bomb sight and destroy them. The spectacular sound and color effects make it a very exciting moment when you succeed.

You must make every effort not only to destroy the UFOs but to destroy the bombs as well. If you don't destroy these bombs (before they land) they will destroy the mother ship.

You must make every shot count because your fuel supply is limited.

Game includes video fuel gauge and space radar.

One or two can play.

Tips for beating high score - when UFO drops a miss, shoot for the mine and if you destroy it all the alien ships on the screen are destroyed.

ADDITIONAL INFORMATION
